
TAKE A STEP INTO THE BEYOND

It's a world peopled by marvellous games ideas – some available now, others ready soon, some still at the planning stage.

Beyond is putting the accent firmly on originality. We'll only bring out games that take you where no-one has taken you before.

No Pacman or King Kong programs but a host of brand new games ideas presented with care and attention to detail. Games that will offer a challenge which lasts for months rather than minutes.
